

LÊ QUANG HUY

Front-End Developer

With the knowledge of what's in the school and courses, I've always wanted to become a Front-End Developer. Having a solid knowledge of HTML, CSS, JAVASCRIPT and REACTJS, plus skills I hone every day. I always want to give my best to help the company grow and achieve for myself. I hope to join the company in professional working environment to improve, develop my programming skills.
